The floor Liners  
 La **REVOLUTION**  
 des tapis

Tout le monde sait que l'hiver rend la conduite difficile, mais garder l'intérieur de son véhicule à son meilleur est également un défi lorsque la neige et le grésil s'en mêle. Acclamé comme un tapis révolutionnaire, le MAXpider Mat protège votre tapis d'origine des taches de sel, de la neige, de la pluie et de la boue avec son ajustement sur mesure.

Écologique, le matériel du tapis est non toxique, inodore et un isolant contre le bruit. Le matériel fabriqué de fibre breveté le rend léger, pesant 30% de moins que les tapis traditionnel en plastique. Fonctionnalité croise la mode pour offrir une belle surface texturée et un concept qui garde la boue et la neige à l'extérieur de votre véhicule.

*Everyone knows winter weather makes driving difficult, but keeping your vehicle's interior in tip-top shape is also a challenge when snow and sleet hit the ground. Hailed as a "liner revolution," the MAXpider Mat protects your original carpet from salt stains, snow, rain and mud with a custom fit that will make dealing with harsh weather a breeze.*

*Environmentally friendly, the mats' material is nontoxic, odorless and sound isolating, and a patented fibre material means they're lightweight, too, weighing 30% less than traditional plastic mats. Function meets fashion with a sleek, textured surface and a design that keeps mud and snow where it belongs: outside your vehicle.*
